## ADVERTISING NORTH EASTERN MICHIGAN

AT MICHIGAN CENTRAL RAILROAD TERMINAL-DETROIT.

Display Attracting Wide-spread Attention.

After the official tour of the section of Northeastern Michigan along the Mackinac division of the Michigan Central railroad made by the various officials of that road and representatives of the Northeastern Michigan Development bureau last summer, it was decided, thru the authorization of General Manager E. D. Bronner, of the M.C.R.R., that it would be well to establish an exhibit of farm products, representative of those produced along that division, in the new passenger terminal building at Detroit.

On Mr. Bronner's recommendation, L. D. Haasner, assistant general passenger agent, co-operating with Secretary T. F. Marston, of the bureau, prepared plans and had a suitable cabinet installed in a very prominent position, directly opposite the ticket windows and in direct path of all the people who arrive at and depart from that important station. The bureau gathered samples of grasses and grains which are representative of the products produced in this district and arranged the display, consisting of wheat, oats, rye, barley, clover, alfalfa, timothy and forage grasses, in the straw, while corn and threshed grains are shown under glass. Photographs of farm scenes and operations are shown, while an automatic stereopticon machine, showing eighty-four views from the district, is in operation from 7 a. m. until 12 o'clock at night.

The only printed matter distributed at the exhibit is that published by the Northeastern Michigan Development bureau. The bureau receives all inquiries made for further information concerning the district, and judging from the number received and the number of pieces of literature distributed, many people are interested in learning more of the district. It is estimated by the railroad that about 20,000 people pass thru the terminal each week. Inquiries have been received from practically every state in the Union.

The people of Northeastern Michigan are deeply interested in this work and are indebted to the Michigan Central railroad for its splendid spirit of co-operation in the movement to make the district known to the world and the bureau will endeavor to keep up a display, which will be in keeping with the magnificent setting—the new terminal.

McNeal, Chestnut St., Grayling, says: "Sometimes, my kidneys have been out of order, causing the kidney secretions to pass too frequently. Colds settled on my kidneys, also. I have used Doan's Kidney Pills, which I get at Olson's Drug store, at these times, and they have always strengthened my kidneys and cured me of the attack."

### FORMER GRAYLING BOY MAKING GOOD.

Gives Interesting Lecture at Daneshod Hall.

It was a large crowd that gathered at Daneshod hall last Sunday evening to listen to one of Grayling's former boys, Alfred Sorenson, who had been urged while on his visit home here to give a lecture. This was the first time that Mr. Sorenson had had the pleasure of speaking to an audience composed of his home people, and his friends in Grayling felt highly honored to be able to hear him.

Mr. Sorenson took as his subject: The life of Dwight L. Moody, the great evangelist. The lecture was fine, and those who were in attendance, were of the opinion, that Mr. Sorenson fully satisfied his audience. After the lecture, the evening was spent socially, and the young ladies of the D. Y. P. society served coffee and other refreshments to all present. All who attended enjoyed the evening very much.

Mr. Sorenson is the oldest son of Mr. and Mrs. Olaf Sorenson of this city, and was born in Grayling. He attended the Grayling High school, but discontinued his school work here, while in the tenth grade. Later he was employed at the Sorenson Bros. furniture store for a few years, at the end of which he went to Chicago, where he took a course in window decorating and trimming. He held a position after finishing this course, with the Holden-Swanson Co., of Chicago, where he was employed for five and one-half years. He resigned this position to enter Grandview college, after many fine offers from his employers to remain in Chicago. He took up Greek, but later began to study for the ministry, and he attended this college for four and one-half years, graduating last June 1st. Since graduating he had been conducting a summer school in Montana, from whence he came to Grayling.

Mr. Sorenson left on the early train Tuesday morning for Detroit to visit his brother Carl and family for a few days, before going to Chicago, where he is scheduled to lecture one night next week.

From Chicago, he will go to Montana, where he has accepted a position as lecturer in a Danish Young People's school. He has accepted this position, as he thinks it will better fit him for the ministry, and as a preacher. Mr. Sorenson expects that this school will close in the Spring, and then he will go to Denmark to spend a year visiting the universities in Copenhagen, and other schools in Denmark, before he will be ordained for the ministry.

Mr. Sorenson has a host of friends in Grayling, who wish for him every success and a prosperous future.

## GRAND TRUNK ADDS TO RAIL EMBARGO

FOLLOWS THE EXAMPLE OF THE  
MICHIGAN CENTRAL ON  
SMALL SHIPMENTS.

### OTHER ROADS TO FOLLOW SUIT

Merchants Fail to Assist by Unload-  
ing Less Than Carload Ship-  
ments.

Detroit—Following the example of the Michigan Central railroad, the Grand Trunk has just announced an embargo on all less-than-carload shipments to Detroit, excepting food products and perishable freight. The action was taken, it is said, as a result of the diversion of small shipments to the Grand Trunk caused by the Michigan Central embargo. Other railroads are expected to follow the lead of the first two, unless immediate relief is obtained from the freight house congestion.

No change in the situation, so far as the campaign to relieve the congestion is concerned, was reported at the meeting of railroad men and transportation committee members in the Board of Commerce. This indicates merchants and small manufacturers are still lagging in their efforts to relieve congestion. Carload freight is being handled rapidly and the situation in this respect looks brighter.

Although railroads entering Detroit had not yet received word that the Big Four railroad had declared an embargo against coal shipments for re-shipment from its lines to Michigan territory, a large portion of the coal from Kentucky fields is usually shipped via the Big Four.

Officials of the district attorney's office refused to confirm rumors that a grand jury investigation of the coal situation will be made. Nevertheless, it is said the grand jury probably will be held for several days after it finishes its routine work to consider "matters of importance." This, together with the fact that J. Herbert Cole, local special agent of the department of justice, will file his first report on the coal shortage and high coal prices, gives strength to the belief that an investigation will be made.

### QUICK TRIAL FOR MURDERER

Shoots Step-daughter, Then Smashes  
Her Skull With Barrel of Gun.

Alma—Less than 12 hours after Albert Cully killed his 22-year-old step-daughter in Middlesex, he had appeared in court and was on his way to Marquette prison to spend the rest of his life. The murder is said to have been an outgrowth of family troubles. Miss Cranmer, wanted her mother to leave Cully, it is said, and open a boarding house at Alma. Cully, fearing that his home would be broken up, is thought to have suffered temporary insanity. He took his shotgun and shot the girl when she met her near his house. The first shot missed but the second struck the girl in the back. Cully then went back into the house to reload his gun, but it is said that his wife broke into the room from the stock in the fight that ensued. Then, taking the barrel of the gun, he ran outdoors and hit his step-daughter over the head, smashing her skull. Cully then went to a neighbor's and called Sheriff Bradford at Thaca.

### STATE ROAD TO TEST WAGE ACT

Starts Action in U. S. Court at Grand Rapids.

Grand Rapids—First action in the United States district court for western Michigan to test the validity of the Adamson eight-hour law was taken by the Chicago, Milwaukee & St. Paul railroad, with Michigan headquarters in Marquette, when a chancery subpoena was served on District Attorney Myron H. Walker, returnable December 6 at Marquette. Although the purpose of the proceeding is not disclosed in the court service on Walker, he said it is the usual course that would be pursued previous to making an application to the court for an injunction to restrain the United States government from putting the Adamson law into effect in the western district of Michigan.

## VAST WAR SUPPLIES SHIPPED TO ALLIES

PORT OF NEW YORK SAID TO HAVE SHIPPED \$70,000,000 WORTH.

### TEUTONS RAGE AT EXPORTS

United States Virtually Making Half of Ammunition Used By British and French.

Berlin, by wireless to Saville, N. H. hand grenades and shells amounted to \$70,000,000, smokeless powder to \$70,000,000 and various items of ammunition \$10,000,000, a total of \$150,000,000.

In addition, the invoices "incurred war and destructive tools, directed against Germany, to the value of many millions more. This statement includes statistics from Philadelphia, Boston, Newport News and Bridgeport."

To the mind of the average German in Germany, who is often the soldier in the trenches, this supply of Y-Few things have made a deeper impression on German opinion than the publication in the Lokal Anzeiger of statistics purporting to prove that the United States is furnishing virtually half the ammunition discharged by the French and English against the Teutonic forces.

"The supply of war materials furnished by the United States to the enemies of Germany is daily taking on larger proportions and is now 50 per cent of the value of the total exports from the port of New York, which represents half the total American exports, all ports, of war materials," says the newspaper.

"The total of half the New York exports, according to September customs figures, made in the declarations, is \$270,000,000. Of these explosives, death-dealing instruments to the enemies of Germany is the crux of the whole situation. The Teutonic mind cannot understand why a 'neutral' nation continues to supply half the instruments to enable one set of belligerents to continue the war."

### RACING CAR KILLS FOUR

### SHOOTS MAN WHILE HUNTING

Trout Lake—James Nickles, of Sault Ste. Marie, was shot and killed by a young man named Warner at Fibron quarry, about six miles west of here. Nickles and Warner had been hunting all day. ## TEUTONS IMPERIL FOE'S ARMY IN DRIVE

GIANT "STEAM ROLLER" OF VON FALKENHAYN'S SWEEPING  
RUMANIA ARMY BEFORE IT.

### TEUTONS ARE NEAR CRAIOVA

Rumanian Armies in the Transylvanian Alps in Danger of Being Cut Off From Their Native Country.

London—Field Marshal von Falkenhayn's "steam roller," sweeping down into northwestern Rumania toward Bucharest, made further important headway according to statements by the Berlin war office, which, in the essential point, is corroborated officially by Petrograd. "In the valley of the river Jial," said the war office, "the Rumanians, under the pressure of superior forces, still continue to retire to the southward."

"Our troops," Britain reported, "are approaching Craiova, capital of the western Wallachia."

It is this city for the possession of which all the furious battles of the last few weeks have been fought in the Jial valley and for the drive against which the Teuton commander has asked and received reinforcements which were denied the crown prince at Verdun.

Craiova, situated a little to the east of the Jial river, is the most important strategic railway intersection in western Rumania. It lies less than 115 miles west of Bucharest. It is the converging point of four railroads.

The capture of Craiova and the subsequent Teuton control of the railway communications in four directions would threaten the entire Rumanian armies in the Transylvanian Alps with being cut off from all connection with the interior of their native country and with a flanking attack on a large scale from the south and east.

Such is the outlook of the Rumanian situation as revealed by the official reports from both sides—an outlook which military critics here admitted to be even more ominous than had been looked for by pessimists.

### GIRL MAKES 590 MILE AIR TRIP

Also Sets Record for U. S. Distance. Lands Covered With Ice.

Binghamton, N. Y.—Ruth Bancroft, Law broke the American cross-country non-stop record in her attempted sunrise-to-sunset aeroplane flight from Chicago to New York.

Driving her antiquated Curtiss through a 45-mile gale, she flew from Chicago to Hornell, 590 miles, (air line) in 8 hours and 55 minutes. She thus captured the brief honors held by Victor Carlstrom, who, on November 2, flew from Chicago to Erie Pa., 452 miles, in an attempt similar to that made by Miss Law.

Thrice she flew straight into the face of death and didn't quiver. She landed at Hornell because she had used all the gasoline in the tanks. Had her supply of fuel lasted, it is likely the nervy girl would have clung to her levers until her goal had been reached. She had hoped to make Governors Island.

She made her first stop on the snow-quilted acres of the Hornell fair grounds. She fell rather than stepped out of her leather seat. A mask of ice glazed her face. Her eyes were fixed like those of a marionette. Her arms remained at right angles as though she had not yet let go the wheel. It was several minutes before she could walk erect or talk coherently.

### DEUTSCHLAND IS LIBELED

Owners of Boat-Sunk in Crash-Fire  
Suit Against U-Trader.

New London, Conn.—The German submarine merchantman Deutschland was libeled in a suit for \$12,000 brought by the T. A. Scott company, owners of the tug T. A. Scott, Jr., sunk by the submarine with the loss of five lives. Service was made by Deputy United States Marshal Timothy Hawley, of Hartford, on the owners of the Deutschland, the Eastern Forwarding company, and a keeper was put in charge of the submarine, pending the filing of bonds which are expected to be given by the owners of the Deutschland. The suit is brought by Edward E. Blodgett, of Boston, and Samuel Park, of New York, proctors for the Scott company. The papers state that the tug was of 36 gross tons and her value is given as \$12,000.

Capt. F. E. Curtis, of the American steamer Columbian, sunk off the coast of Spain by the U-49, was born in Saginaw.

A movement commemorating the establishment of rural free delivery service in Michigan at Christmas December 7, 1916, will be erected at the intersection of two main streets if the proposal of the Climax Men's Fellowship club is accepted by the town council.

The coal situation is growing worse in Pontiac and it promises to be serious all the winter months. Coal dealers are unable to get new shipments and the supply on hand is rapidly vanishing. The price of coke has been going up rapidly.

Lewis Rich, a Bedford farm hand, attempted his life at the Battle Creek detention hospital, where he was in quarantine for infantile paralysis. Rich, who is only 27 years old, claims he did not know what he was doing, but the doctors think he feared death from paralysis and so cut his throat when left alone. Chances for recovery are fair.

For trying to commit suicide in Highland Park, John Herenda, 28 years old, was sentenced to 60 days in the Detroit House of Correction by Judge Langgan.

## SAGE AND SULPHUR DARKENS GRAY HAIR

It's Grandmother's Recipe to Restore Color, Gloss, and Attractiveness.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Weyl's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe improved by the addition of other ingredients, for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

Weyl's Sage and Sulphur Compound is a delightful toilet preparation for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

## DRINK HOT WATER BEFORE BREAKFAST

Says you really feel clean, sweet and fresh inside, and are seldom ill.

If you are accustomed to wake up with a coated tongue, foul breath, or a dull, dizzy headache; or if your meals are indigestible and turn into gas and acids, you have a real surprise awaiting you.

Tomorrow morning, immediately upon arising, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is intended to neutralize and then wash out of your stomach, liver, kidneys and thirty feet of intestines all the indigestible waste, poisons, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal. These subjects to sick headaches, backache, bilious attacks, constipation or any form of stomach trouble, are urged to get a quarter pound of limestone phosphate from the drug store and begin enjoying this morning's ritual. It is said that many men and women who have become enthusiastic and kept it up daily. It is a splendid health measure for it is more important to keep clean and pure on the inside than on the outside, because the skin pores do not absorb impurities into the blood. The alimentary canal, which is the source of all diseases, is the principle of bathing inside is not new, as millions of people practice it. Just as hot water and soap cleanse, purify and freshen the skin, so hot water and a teaspoonful of limestone phosphate act on the stomach, liver, kidneys and bowels, almost instantaneously.

Those Mexican Names. Mexican names that are euphonious, in Spanish are awkward when pronounced as in English. The vowels have the same sound as in German. J has the sound of a strongly aspirated H, and H is mute. The double H is rolled, and the double L is followed by the consonant sound of Y. The accent is, on the ultimate when the word ends in a consonant, usually on the penultimate when ending in a vowel.

Producing Colored Silks. It has been found that by feeding silkworms partly on mulberry leaves and partly on osage leaves, being extremely careful with the allowances of the two foods, they can be made to produce red and blue silk. Colored thread has been obtained by feeding the worms on dyed leaves, but this method is not practical on a commercial scale. The natural color of raw silk is yellow or white.

Thoughtful Husband. A New Yorker tells of a married couple he observed at a county fair in Ohio. They found themselves in the center of quite a crowd near one of the amusement booths and the husband addressed his wife in this wise: "I say, dearie, I think you'd better give me the lunch basket. Don't you see, we are apt to lose each other in this crowd?"

Charity. A worthy countryman in Sunbia sent in a petition to the military authorities asking that his son be allowed a furlough to come home and visit his parents. He concluded his document as follows: "Excuse my writing. I have only had a common school education, and that under a teacher who was a very thirsty man."

Growing Young. There are two ways to keep from growing old: the first is to die young and the other is to keep young. The spirit of youth is cultivated by learning new things. A desire to know is followed by mental growth. Thus you grow young in spite of wrinkles and gray hair.

Headache of any kind, is caused by auto-intoxication—which means self-poisoning. Liver and bowel poisons called toxins, sucked into the blood, through the lymph ducts, excite the heart which pumps the blood so fast that it congests in the smaller arteries and veins of the head producing violent throbbing pain and distress, called headache. You become nervous, dependent, sick, feverish and miserable, your meals sour and almost nauseate you. Then you resort to acetanilide, aspirin or the bromides which temporarily relieve but do not rid the blood of these irritating toxins.

A glass of hot water with a teaspoonful of limestone phosphate in it, drunk before breakfast for awhile, will not only wash these poisons from your system and cure you of headache but will cleanse, purify and freshen the entire alimentary canal.

Ask your pharmacist for a quarter pound of limestone phosphate. It is inexpensive, harmless as sugar, and almost tasteless, except for a sourish twinge which is not unpleasant.

If you aren't feeling your best, if tongue is coated or you wake up with bad taste, foul breath or have colds, indigestion, biliousness, constipation or sour acid stomach, begin the phosphate hot water cure to rid your system of toxins and poisons.

Results are quick and it is claimed that those who continue to flush out the stomach, liver and bowels every morning never have any headache or know a miserable moment.

Robert W. Chambers has never written a more wonderful story than this brilliant novel of New York life. It's heroine, Valerie West, artist-model and philosopher, is one of the most sympathetic figures in modern literature. As portrayed by Miss Clara Kimball Young, she becomes a living personification of sweet and noble womanhood. Her joys and sorrows, her trials and ultimate triumph in the love of Kelly Neville, artist and gentleman, have given the screen one of the few really great photo-dramas ever produced.

## "The Common Law"

### "The Ne'er-Do-Well"

"The Ne'er-Do-Well," with all its depth of love, and soft, sweet tropical beauty, and Fiendish Jealousy, and Black Intrigue—with the naked passions of men and women bared before you as only Rex Beach can bare them—with its hero football player from New York ensnared alike by the dazzling southern beauty, "Chiquita," and the seductive Edith Cortlandt, wife of the other man.

Kirk Antony's pulses pounded to a thrill he had never known before. Cortlandt's wife lay in his arms; her face was close to his; her lips within his reach.

This passion-throbbing film is the greatest production since "The Birth of a Nation."

Do not fail to see this splendid ten-reel feature Thanksgiving Night.

Prices 15, 25 and 35c

### "The Common Law"

Robert W. Chambers has never written a more wonderful story than this brilliant novel of New York life. It's heroine, Valerie West, artist-model and philosopher, is one of the most sympathetic figures in modern literature. As portrayed by Miss Clara Kimball Young, she becomes a living personification of sweet and noble womanhood. Her joys and sorrows, her trials and ultimate triumph in the love of Kelly Neville, artist and gentleman, have given the screen one of the few really great photo-dramas ever produced.

Reserved Seats for this feature will be on sale at Central Drug Store.

Don't forget the date---Sunday, Dec. 3

Prices 15, 25 and 35c

Both of the above attractions are first-class and deserving of your attendance. Plan on attending and bring along your friends.

WHERE THE WILD TURKEY CALLS—THE REAL THANKSGIVING BIRD

## A NEW THANKSGIVING

by JAMES W. BECKMAN

THIS is the week of Thanksgiving. Thanksgiving day is an American custom started by the Pilgrims who landed on the new continent and faced hardships which few can realize who are reared in the wealth and luxury of the land today.

The season had been a hard one. Many had died and the prospect of starvation during the cold winter with its ice and snow loomed large. So when the harvest yielded enough to keep them until another season would produce the necessities of life, they met that last Thursday in November in year 1621, and gave thanks to their God, who had remembered them.

Thankfulness is usually in inverse ratio to the value of the thing for which we give thanks. This is no disparagement of the things we are grateful for; but humanity does not think of thanks until it has felt the terrors of distress.

The rich who live in luxury and ease do not think with their hearts. Their thanks are but formal expressions of meaningless words. How can words mean anything when one has not felt the things which make for thankfulness?

YOUTH THE LOSER. J. P. Morgan, the famous financier, was talking at a dinner in New York about a young banker who had failed. "It was his youth that made him fail," he said. "Youth is always failing—failing in business, failing in love."

Remy de Gourmont tells us truly that in the game of life youth has all the trumps—all of them—but plays recklessly, and invariably loses.

HAPPY EFFORT. "Truly a felicitous speech! He has a style—all his own."

"Hum! Just where does the felicity come in?"

"The felicity is like his style—all his own."

A full-grown elephant yields 120 pounds of ivory.

## THANKSGIVING DAY

That we're at peace with all the world. Safe in our cities and our homes. That unto this our favored land. Such gift with all its blessings comes. That men go not to war and blood. That women do not feel dread. By anxious hearts for dear ones gone. We thank Thee, Giver of all good.

That no ambitious strife is ours. That lust of conquest does not thrill. This mighty nation's inmost heart. That we abhor to boast and kill. That weaker nations we protect. Fight but to make their wronging cease. And only comes to make them free. We thank Thee, God of love and peace.

That in the stress around us now. We feel our hearts with pity throbs. And haste to heal the wounded man. To hush the child and woman's sob. That we are eager still to share. The goods that heap our stores again. With those who have but us to help. We thank Thee, Father of all men!

Feast of the Tabernacles. The feast of the tabernacles in the Old Testament times was also a harvest celebration and took place on the sixteenth day of the month, which corresponds to our November. Sometimes lasting for a whole week. They gathered in the temple in great processions, holding palms, and in the streets were booths decorated with the flowers and fruits of autumn.

Among the Indians of America the custom of having a Thanksgiving feast was practically universal—at least among those who had any amount of planting. As corn was the main article grown, their dances and feasting were generally in honor of the harvest.

Feasting of that food. The writers of several hundred years ago who first introduced the Indian to his native health and the English upon gaining authority there followed their example. This English harvest home was familiar to them, and they carried out the American feast day much as they had in the old days on the island. This event there was and still is purely a rural one, and is the sole day in the year when the vast estates of the British gentry are thrown open to the whole countryside. There is a burn dance at night, sports on the greenward as the sun sets; just as there was a thousand years ago among the Saxons; and there is, of course, quite a wonderful dinner. It was in 1830 that the governor of New York chose a day of thanksgiving for yearly observance, and several other northern governors soon followed his lead.

A Helping Hand. One doesn't need to be rich or famous to reach out a helping hand to someone who needs it. A good example is a great work—the greatest work a woman can do—and it doesn't require the spending of a one-cent piece. Example is contagious. We can begin a very sweet work if we will—a work that will do more good than we would ever dream about.

Then let us put aside petty repinings and complaining, sit down quietly Thanksgiving day and count up our blessings, and let us be truly grateful for them. We probably know someone struggling on alone. If we are able to do so, why not bring a little practical cheer into her life Thanksgiving day? If we do the holiday will fly away with golden wings and next morning we'll know what it is to be thankful and happy.

The Thankful Spirit. Cultivate the thankful spirit. It will be to thee a perpetual feast. There is, or ought to be, with us no such thing as small mercies; all are great, because the least are undervalued. Indeed, a really thankful heart will extract motive for gratitude from everything.—J. R. Macduff.

Christ's standards are good for two worlds.

## CLEVELAND NEWS

Cleveland, Ohio.—"Annie has certainly been of wonderful help in relieving my limbs and joints of rheumatic pains. At the time I commenced to take Annie I had sharp pains in my shoulders; my knee joints were so bad that they made a cracking noise as I walked, and my right limb became so rheumatic that I could not depend upon it at all in going up or downstairs. Water was of a milky consistency and at times showed a brick-like sediment. Annie has cured me of all these symptoms of kidney trouble and has restored me to a healthy physical condition once more. I would advise every man and woman who suffers with any kidney ailment to give Annie a fair trial. It will surely repay them."—MRS. ANNA MATHER, 6419 Woodland Ave.
